Objective

Seeking challenging opportunities to grow, strengthen my technical and leadership skills, and take greater ownership of building scalable, impactful products.

Skills

- **Languages:** TypeScript, JavaScript, Go, C++, Java, C, SQL
- **Frameworks & Libraries:** React.js, Angular.js, Node.js, Fusion.js, RxJS
- **Generative AI:** LLMs, AI Agents, MCP, Agentic Workflows, Tool Calling, Prompt Engineering
- **Cloud, Engineering & Databases:** AWS, Azure AD B2C, CI/CD, RESTful APIs, Git/GitLab, gRPC, Kafka, MySQL, DynamoDB, Jira, Postman, Grafana
- **Core Competencies:** Leadership, Technical Ownership, Collaboration, Problem Solving, Mentorship

Education

Motilal Nehru National Institute of Technology (NIT) Allahabad
B.Tech, Electronics and Communication

Aug 2018 – May 2022

Professional Experience

Software Engineer II, Uber – Bengaluru, India

Nov 2025 – Present

- **Corporate Billing Integration:** Designed and drove delivery of billing for **3,000 ad accounts** linked with **30K+ restaurants**, collaborating across Billing and Payments teams to address a gap where corporate Offers were charged through restaurant payouts; enabled **centralized billing for Offers**.
- **New-to-Brand Targeting:** Led the design and delivery of **NTB targeting** to help advertisers reach **customers who have not previously ordered from their brand**; reached **700+ enterprise brands** and **5,100 campaigns**, generating **\$27M+ revenue** at **18x+ average ROAS** in H1 2026.
- **AI-Powered PR Readiness Skill:** Designed and built a **Claude Code skill** with **LangGraph, LangChain, and MCP** to automate code review, test execution, linting, type checks, remediation, and stacked-PR validation; **used daily by 500 developers**.
- **Store Performance Insights & Recommendations:** Designed and built store-level reporting with **click-through rate (CTR), click-to-order rate (CTO), online rate, and competitor benchmarks**, enabling **62% of ad accounts** to identify underperforming stores and take action through guided **Ads and Offers recommendations**.
- **Ads & Offers Unification:** Led the design and delivery of a unified targeting experience across Ads and Offers, enabling advertisers to target **Lapsed Customers, Existing Customers within 42 days, and custom order-frequency segments**; generated **\$8M Ads revenue** and **\$3M Offers revenue** through a **feature-flagged, backward-compatible rollout**.

Software Development Engineer, Elevate K-12 – Remote

June 2023 – Sept 2025

- **Architecture & Performance:** Led development of an Angular microservice with **CI/CD, Azure AD B2C SSO, caching, CDN, and lazy loading**, delivering **5–6x performance improvement** for a platform supporting **350K+ teachers, students, coaches, operations, and district leaders**.
- **Authentication & Collaboration:** Implemented **Azure AD B2C SSO** across **teachers, students, Coaches, operations, and district leaders**, reducing redundant token generation by **50%** across a **1M+ user platform**; built real-time collaboration.
- **AI & Real-Time Video:** Implemented **OpenAI Whisper** to add real-time transcription to Live Classroom, enabling analysis of **classroom engagement and performance**; integrated **Jitsi Web SDK** for multi-user collaboration and breakout rooms.

SDE, Ola Electric Technologies – Bengaluru, India

June 2022 – April 2023

- **Customer Purchase Experience:** Designed and built **React-based UI flows** for customer onboarding, scooter selection, payment, and delivery scheduling, integrating **REST APIs** for payment processing and implementing validation with **location, date, and time-based delivery logic**.
